

nutritionDay November 2013 in COLOMBIA

Dear participant, April 2014

Thank you for your participation in nutritionDay worldwide in November 2013 and for your effort. We can finally present you your preliminary country report of the following sample size:

Number of units on nutritionDay:	34
Number of patients on nutritionDay:	1098
Number of patients completing Sheet 3a:	1089
Number of patients completing Sheet 3b:	1063

The report consists of 3 parts:

Part I reflects the organisation and the structure of the unit.

Part II describes the patients according to questionnaire "sheet 2".

Part III is the summary of information on nutrition given by the patients according to sheet 3a and 3b.

You will find some explanations how to read and interpret the data on the next page.

Next year's nutritionDay will take place on November 6th 2014. Again, we would very much appreciate your participation. You will be provided with further information on a regular basis.

Best regards from the nutritionDay-Team!

Prof. Dr. Michael Hiesmayr

PD. Dr. Karin Schindler

k. Shindle

Sigrid Kosak, MA

Ligid Morak

How to read the results

Your report is configured as table with 3 columns. The first column contains the name of the result, possibly with a short description. In the second column you will find your unit's results and in the third column you can see the reference values from units comparable to your patients.

You will find "(n)" in brackets indicating that results are referring to a certain number of patients. Generally the patients' results are based on the number of patients participating at your unit.

```
For example: number of patients on nutritionDay 2013 = 20
Fluid status (n):
dehydrated 4
```

Explanation: 4 of 20 patients participating are reported to be dehydrated on nutritionDay 2013.

If results are referring to an "n" different to the number of patients participating, a short explanation will be given.

For example: number of patients on nutritionDay 2013 = 20

```
Weight loss within 3 months (n)
```

```
Yes 10

Category of weight decrease (n):

0-4 kg 4

5-8 kg 2

> 8 kg 1

not sure 2
```

missing

Explanation: 10 of 20 patients reported a weight loss within the last 3 months. The category of weight decrease is only referring to these 10 patients having lost weight.

Be careful! - There are some multiple choice questions in the questionnaires. In this case the total number of answers exceeds the number of patients. These results are marked with an asterisk.

For example: Affected organs (n)*

Mean and standard deviation are displayed as follows:

For example: Weight (kg) 75 ± 15

Median and range are displayed that way:

For example: LOS (days) 8 [5-15]

I. DESCRIPTION OF THE UNIT ("Sheet 1"):

	496 units, 9896 patients
