### Why?

Did you know that up to 40% of hospitalised patients are affected by disease-related malnutrition?

# **How** does it affect you? Malnutrition leads to:

- Increased healthcare costs
- Prolonged length of stay for patients
- 3. Unfavourable prognosis for patients

#### When & Where?

On 6th November 2014.

In hospitals, Intensive Care Units and nursing homes

#### Who?

Be one of the many worldwide hospitals or nursing homes taking part and creating a supportive environment – share best practice, improve standard of care through benchmarking

## nutritionDay

WORLDWIDE

#### The solution

nutritionDay is a one-day multi-centre audit to help you improve patient safety and quality of care

#### What to do?

- 1. Visit <u>www.nutritionday.org</u> and register.
- 2. Follow the steps.
- 3. Participate in 2014.
- Receive individual reports as well as a specialty based comparison for benchmarking.
