ESPEN expert statements and practical guidance for nutritional management of individuals with SARS-CoV-2 infection

LATEST NEWS

nDay evaluation survey for nDay participants: a quality control of the audit in hospital settings

After more than 10 years of nutritionDay, our nDay staff is running an anonymous survey to assess the comprehension and the usability of the nDay questionnaires and reports by the nDay participants. The survey specifically focuses on the nDay hospital questionnaires and reports. All nDay participants of the last years are contacted via email and the completion of the survey only takes 10-15 mins. Your participation to the survey will allow us to continuously improve the nutritionDay audit to offer full support in monitoring nutrition care in healthcare institutions worldwide.

Initiatives of the national coordinators to promote nDay in central and south America - live webinar in spanish

Informative webinars on participation to nDay 2020 have been organized by the national coordinators of Ecuador (Dr. E. Frias) and by the Colombian Society for clinical nutrition (ACNC) in Spanish language. Participation is free and requires prior registration. Explanations on registration code orders and data collection are discussed during the webinar.
