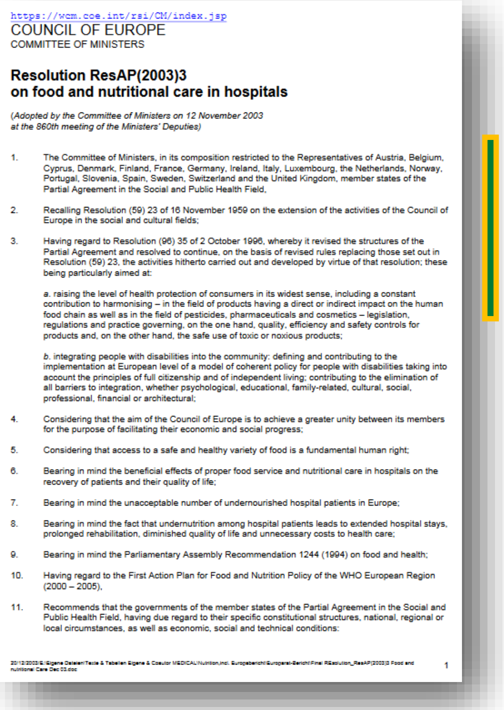
Rationale

14
NOV
nDay
2024

nutritionDay is based on the **Resolution ResAP(2003)3 on food and nutritional care in hospitals** which was adopted by the Council of Europe in 2003.



https://wcm.coe.int/rsi/CM/index.jsp
COUNCIL OF EUROPE
COMMITTEE OF MINISTERS

Resolution ResAP(2003)3
on food and nutritional care in hospitals

(Adopted by the Committee of Ministers on 12 November 2003
at the 860th meeting of the Ministers' Deputies)

1. The Committee of Ministers, in its composition restricted to the Representatives of Austria, Belgium, Cyprus, Denmark, Finland, France, Germany, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Slovenia, Spain, Sweden, Switzerland and the United Kingdom, member states of the Partial Agreement in the Social and Public Health Field,

2. Recalling Resolution (59) 23 of 16 November 1959 on the extension of the activities of the Council of Europe in the social and cultural fields;

3. Having regard to Resolution (96) 35 of 2 October 1996, whereby it revised the structures of the Partial Agreement and resolved to continue, on the basis of revised rules replacing those set out in Resolution (59) 23, the activities hitherto carried out and developed by virtue of that resolution; these being particularly aimed at:

   a. raising the level of health protection of consumers in its widest sense, including a constant contribution to harmonising – in the field of products having a direct or indirect impact on the human food chain as well as in the field of pesticides, pharmaceuticals and cosmetics – legislation, regulations and practice governing, on the one hand, quality, efficiency and safety controls for products and, on the other hand, the safe use of toxic or noxious products;

   b. integrating people with disabilities into the community: defining and contributing to the implementation at European level of a model of coherent policy for people with disabilities taking into account the principles of full citizenship and of independent living; contributing to the elimination of all barriers to integration, whether psychological, educational, family-related, cultural, social, professional, financial or architectural;

4. Considering that the aim of the Council of Europe is to achieve a greater unity between its members for the purpose of facilitating their economic and social progress;

5. Considering that access to a safe and healthy variety of food is a fundamental human right;

6. Bearing in mind the beneficial effects of proper food service and nutritional care in hospitals on the recovery of patients and their quality of life;

7. Bearing in mind the unacceptable number of undernourished hospital patients in Europe;

8. Bearing in mind the fact that undernutrition among hospital patients leads to extended hospital stays, prolonged rehabilitation, diminished quality of life and unnecessary costs to health care;

9. Bearing in mind the Parliamentary Assembly Recommendation 1244 (1994) on food and health;

10. Having regard to the First Action Plan for Food and Nutrition Policy of the WHO European Region (2000 – 2005),

11. Recommends that the governments of the member states of the Partial Agreement in the Social and Public Health Field, having due regard to their specific constitutional structures, national, regional or local circumstances, as well as economic, social and technical conditions:

15-40% of hospitalised patients are „**malnourished**“

Various **scoring** systems exhist but **none** includes validated **outcome**

„hospital malnutrition“
„malnutrition of the elderly“
„disease related undernutrition“

National Report

https://www.nutritionday.org/en/about-nday/**national-reports**/index.html

MEDICAL UNIVERSITY OF VIENNA

ESPEN
The European Society for Clinical Nutrition and Metabolism

Summary on nDay

nutritionDay is a simple and free tool to:

- quantify the prevalence of nutrition risk in hospitals and nursing homes units
- Includes collection of Patients'outcome (30, 60 or 180 days after nDay)
- Participating Units receive a report with worldwide comparison (reference data)
- Ideally it can be an action at national level on 1 specific day

Evaluation of interventions to modify clinical nutrition care **is possible**

- Ask history at patient's admission
- Ask patients about their food intake in the previous week (weight loss?)
- Monitor and record food intake daily (like measuring temperature)

nutritionDay
WORLDWIDE

Benefits on nDay participation

14 NOV nDay 2024

Quality safety **Benchmarking** **Certification**

- promote good nutrition care in your institution
- Increase awareness for malnutrition in your facility
- Monitor the development of the nutritional situation of patients/residents
- Compare your facility data to others worldwide
- Open discussion with the team on strategies for improvement
- Basis for an active partnership between patients and caregivers

Use nutritionDay as tool for quality safety and benchmarking in your unit, every year.

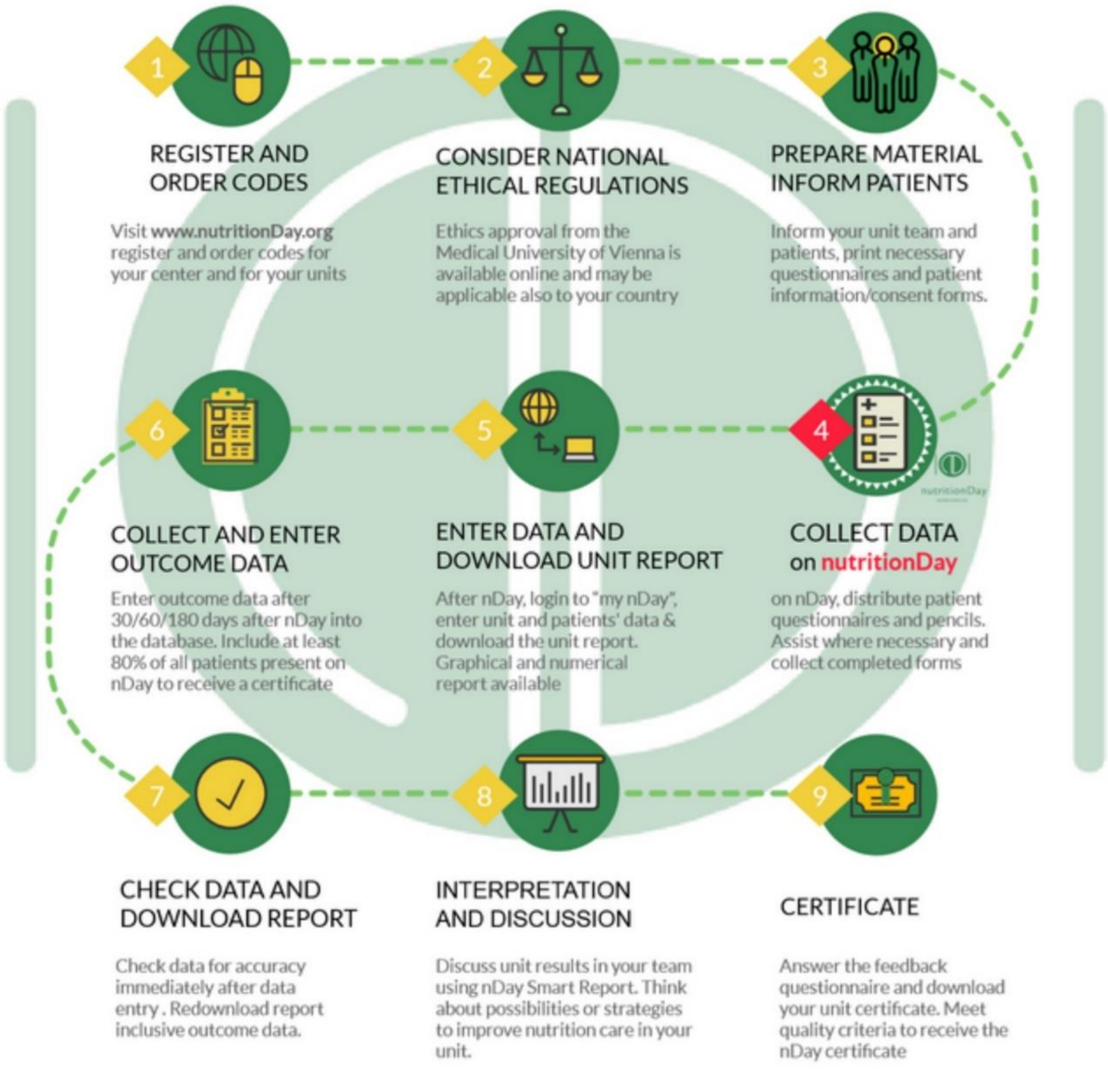
How to participate to nDay

14
NOV
nDay
2024

EASY STEPS



1 **REGISTER AND ORDER CODES**

Visit **www.nutritionDay.org** register and order codes for your center and for your units

2 **CONSIDER NATIONAL ETHICAL REGULATIONS**

Ethics approval from the Medical University of Vienna is available online and may be applicable also to your country

3 **PREPARE MATERIAL INFORM PATIENTS**

Inform your unit team and patients, print necessary questionnaires and patient information/consent forms.

4 **COLLECT DATA on nutritionDay**

on nDay, distribute patient questionnaires and pencils. Assist where necessary and collect completed forms

5 **ENTER DATA AND DOWNLOAD UNIT REPORT**

After nDay, login to "my nDay", enter unit and patients' data & download the unit report. Graphical and numerical report available

6 **COLLECT AND ENTER OUTCOME DATA**

Enter outcome data after 30/60/180 days after nDay into the database. Include at least 80% of all patients present on nDay to receive a certificate

7 **CHECK DATA AND DOWNLOAD REPORT**

Check data for accuracy immediately after data entry . Redownload report inclusive outcome data.

8 **INTERPRETATION AND DISCUSSION**

Discuss unit results in your team using nDay Smart Report. Think about possibilities or strategies to improve nutrition care in your unit.

9 **CERTIFICATE**

Answer the feedback questionnaire and download your unit certificate. Meet quality criteria to receive the nDay certificate

- Check the EASY STEPS for participation
- Go to www.nutritionDay.org
- Participation is free of costs and achived with a functioning email address
- Check the step-by-step guidance for the different categories

Survey & Certificate

To receive the nD certificate 3 quality criteria have to be met:	
1. Minimum of 8 patients have to be included in the audit per unit (this is also the minimum number required to receive a unit report)	
2. Minimum of 60% of all patients present on nD have to be included in the nD audit.	
3. Minimum of 80% of patients have to be included in the outcome evaluation 30/180 days after nD.	
1. Minimum of 8 patients is	REACHED
2. Minimum of 60% of all patients present on nD is	REACHED
staffed beds #: 25 - current patient #: 10	
3. Minimum of 80% of patients have to be included in the outcome evaluation is	REACHED
current outcome #: 10 - no consent #: 0	

1. Click on **Certificate** and answer to small survey prior to obtain certificate

- nDay certificates for hospital category are issued if quality criteria are met.

- nDay certificate for ICU category is issued by the nutritionDay office upon request if quality criteria are met.

SERVICE
SUPPORT

1

REGISTER AND ORDER CODES

Visit **www.nutritionDay.org** register and order codes for your center and for your units

2

CONSIDER NATIONAL ETHICAL REGULATIONS

Ethics approval from the Medical University of Vienna is available online and may be applicable also to your country

3

PREPARE MATERIAL

INFORM PATIENTS

Inform your unit team and patients, print necessary questionnaires and patient information/consent forms.

4

COLLECT DATA on nutritionDay

on nDay, distribute patient questionnaires and pencils. Assist where necessary and collect completed forms

nutritionDay
WORLDWIDE

5

ENTER DATA AND DOWNLOAD UNIT REPORT

Login to your nDay account, enter unit and patients' data & download the unit report. Graphical and numerical reports available

6

COLLECT AND ENTER OUTCOME DATA

Enter outcome data after 30/60/180 days after nDay into the database. Include at least 80% of all patients present on nDay

7

CHECK DATA AND DOWNLOAD REPORT

Check data for accuracy
Download report inclusive outcome data.

8

INTERPRETATION AND DISCUSSION

Discuss unit results in your team using nDay Report.
Develop strategies to improve nutrition care in your unit.

9

CERTIFICATE

Meet nDay data quality criteria to receive the nDay certificate
